WHO WE ARE

API-4F-0502
APIQR-5197
APIQ1-5023
ISO-5197

In 2022, **Odyssey Design & Manufacturing** was founded in Brady, Texas, becoming the newest member of The Western Group family. **The Western Group** has stood at the forefront of the compressed gas industry since 1963, building a legacy of quality, innovation, and trust across generations. Though a young company, Odyssey draws on engineering expertise and industry knowledge that span back to 1963.

Odyssey Design & Manufacturing, Inc. (ODM) stands out as one of the nation's most versatile manufacturing and servicing companies. Having mastered the art of scalability, ODM can handle any project, big or small. Located on top of the Permian Basin and three hours from the Gulf Coast, ODM is uniquely situated to service the needs of the petroleum and compressed gas industries. ODM has experience building and recertifying a wide array of industrial equipment, including compressed gas tube trailers, ISO containers and chassis, heavy equipment transport trailers, and specialty oilfield equipment, including workover rigs and sand shakers.

COMPRESSED GAS

Steel Trailers

We manufacture, refurbish, and requalify a wide array of compressed gas transportation and storage equipment, including compressed gas tube trailers, multiple element gas containers (MEGCs), and ASME ground storage assemblies.

HYDROSTATIC & MODAL ACOUSTIC EMISSIONS TESTING CAPABILITIES

Composite Trailers

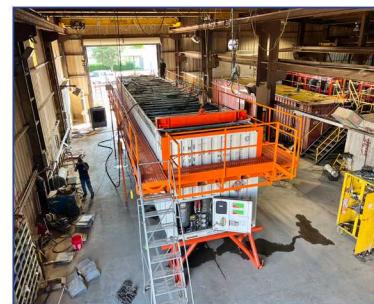

With more than six decades of experience designing, building, and testing gas storage equipment, Odyssey's high-quality products and services set the bar for safety and dependability.

TRANSPORTERS

Odyssey specializes in consultation, design, manufacturing and repair of trailer chassis for Compressed Gas Trailers, Intermodal Shipping Container Trailers, and Oilfield and other Heavy Equipment Transport Trailers.

Odyssey can retest in accordance to CFR49 Applicable DOT-SP to Compressed Gas Association Guidelines.

CAT IV Inspection & Certification

OIL & GAS

Specializing in mobile and land drilling rigs and custom oilfield manufacturing, the company is committed to the uncompromising engineering and production of oilfield equipment and excellent customer service.

Workover & Drilling Rigs, Drawworks, Masts

Our facilities feature three dedicated welding production lines, advanced paint booths, on-site testing areas, a spacious warehouse, an indoor assembly zone, and local administrative offices. This comprehensive infrastructure enables the company to effectively meet the unique requirements of each client, ensuring competitiveness in the increasingly efficient oilfield industry.

Inspection Services, Refurbishing & Certification

- 4F Mast Inspection
- CAT III and CAT IV
- Drilling Structure
- Component Replacement
- Paint • Flooring
- Upgrade BOP Systems
- Rig Capacity

OUR MISSION

Our mission is to safely provide high-quality innovative products and services to the industries we serve, for the benefit of our employees, customers, and businesses.

OUR CORE VALUES

Safety

Providing a safe workplace for all team members and maintaining compliance with relevant laws, standards, and specifications.

Quality

Meeting or exceeding expectations.

Integrity

Doing the right thing and holding team members accountable.

Growth

Fostering individual, corporate, and customer success.
